
SEMINARIO

Indranath Sengupta

IIT Gandhinagar, India

Projective closure of semigroup rings

Abstract: We will define a projective closure of affine semigroups and discuss its Cohen-Macaulayness criterion using a Groebner basis. Bounds on Betti numbers will also be discussed during the talk.

Seminario del IMUVa, Edificio Lucía
Miércoles 10 de Diciembre de 2025 (13:00)
