

Jornada de Doctorandos en Matemáticas de la UVa 2019

9:45-10:00 | **Presentación de las Jornadas**

Hristo Inouzhe

10:00-10:30 | *"Attraction-Repulsion clustering with applications to fairness"*

Paula Gordaliza

10:30-11:00 | *"A central limit theorem for L_p transportation cost on the real line with application to fairness assessment in machine learning"*

Yolanda Larriba

11:00-11:30 | *"How to recover cell cycle dynamic in chronobiology using scRNA-seq data"*

11:30-12:00 | **Pausa café**

Beatriz Molina

12:00-12:30 | *"Espacios foliados Newton no-degenerados y explosiones"*

Oziel Gómez

12:30-13:00 | *"Invariantes analíticos de separatrices no aisladas de foliaciones dicríticas"*

Daniel Camazón

13:00-13:30 | *"Dual weighted graph/polyhedron for higher dimensional singular algebraic varieties"*

14:00 | **Comida de las Jornadas**

**Seminario del IMUVA, Edificio LUCIA
Viernes 6 de julio de 2017**
